

**Humminbird HDR 610 “CE” APPROVAL FILE**

FROM: DAVE BETTS

DATE: October 3, 2005

CE regulations allow for self-certification when there is reasonable technical basis for doing so.

The Humminbird HDR 610 is built using the same components, the same processor, display, PC board and housing as the HDR 600. The HDR 600 passed CE testing (EN50081-1: 1992 and EN50082-1: 1992) in July of 1998 (Retlif Test Report R-7609, July 17, 1998)

The same microprocessor, operating at the same speed, is used in both products. The software used in the Humminbird HDR 610 is the same as the code used in HDR 600.

Based on this information we certify that the Humminbird HDR 610 meets CE requirements.

A handwritten signature in black ink that reads 'Dave Betts'. The signature is fluid and cursive, with the first letters of 'Dave' and 'Betts' being capitalized and prominent.
